AMENDMENTS TO CLAIMS

Please amend the claims below by deleting items marked with a strikethrough (i.e. ~~patent~~) or brackets (i.e., [patent]) or double brackets (i.e., [[patent]]), and adding items marked with an underline (i.e. patent).

Claims 1-16(Canceled)

17. (Previously Presented) A pet chew toy comprising:

an elongated body member having a plurality of ribs and a corresponding plurality of interstitial spaces formed therebetween, said plurality of ribs and said plurality of interstitial spaces capable of cooperatively impinging at least one consumable treat;

wherein said plurality of ribs comprise:

a first series of ribs and a first series of interstitial spaces therebetween substantially

disposed in a direction parallel to a central axis of said first bore; and

a second series of ribs and a second series of interstitial spaces therebetween

concentrically disposed about a central axis of said second bore;

a first bore and a second bore parallelly disposed to said first bore; and

said body member impregnated with a liquid flavoring, said liquid flavoring

dispensed through a plurality of apertures formed in said body member.

Claims 18-57. (Canceled)
